Amendments

Please cancel claims 1-34 without prejudice and add the following claims:

35. A system for recording information regarding telephone calls comprising one or more segments, comprising:

(a) a first memory having one or more locations storing audio data regarding telephone call segments relating to one or more telephone calls;

(b) a second memory having one or more locations storing data regarding telephony events associated with the telephone call segments; and

(c) a processor programmed to identify telephone call segments that relate to one telephone call and to construct a data representation of a lifetime of the telephone call,
